Record: 10-GT&C Section 2  
(Quality of Gas)  
Version: (0.0.0)

Issued: August 13, 2010  
Effective: August 13, 2010

---

2. QUALITY OF GAS

2.1 Gas Quality Specifications: All gas tendered at the Receipt Points and delivered to the Delivery Points hereunder shall be of merchantable quality, and shall conform to the quality specifications and requirements as provided below:

- (a) The gas shall be commercially free from objectionable odors, solid matter, dust, gums and gum-forming constituents, or any other substance which might interfere with the merchantability of the gas, or cause injury to or interference with proper operation of the lines, meters, regulators, or other appliances through which it flows.
- (b) Oxygen - less than or equal to 0.2% by volume.
- (c) Hydrogen sulfide - less than or equal to 1/4 grain/Ccf.
- (d) Total Sulphur - less than or equal to 20 grains/Ccf.
- (e) Carbon Dioxide - less than or equal to 2.0% by volume.
- (f) Water - less than or equal to 6 pounds/MMcf.
- (g) Heating Value - greater than or equal to 950 Btu/Cubic Foot.
- (h) The temperature shall be less than or equal to 120 degrees Fahrenheit.

If at any time, gas tendered to Transporter at a Receipt Point fails to conform to the quality specifications, Shipper shall notify Transporter promptly of such deficiency and follow notification in writing. If gas delivered to the Delivery Point(s) fails to conform to the quality specifications, Shipper shall notify Transporter promptly of such deficiency and follow notification in writing. In both instances, the deficiency shall be remedied within a reasonable period of time. Neither Transporter nor Shipper shall be required to receive gas that fails to conform to the quality specifications.
